

COSC 2030 FA25 Midterm Project Preliminary Work Part 2:

Watch this video which introduces Greenfoot and talks about the hedghog project.

Now that you have an idea of how Greenfoot works, add another actor to the hedghog game.

Take a look at the ShootingGame and watch this video introduction:

In the video, Jaimie (the presenter) says he would re-write the section that positions the 'birds' which are really butterflies so that they don't touch each other without having to place every single one. Figure out how to do this.

TURN IN: a video summary of your work.
